All-around ReShade Preset "Eukira" (No FPS loss)

How to install ?

There are two OIV installer files, game tweaks and textures.
1 - If you need the full Real | RAGE experience, install both.

2 - If you using other texture mods and you only need the game modifications just install the game tweaks installer.

3 - If you using other graphics mod and you only need the textures mods, just install the textures installer.
